

# Vilane Gonçalves Sales

MARIE CURIE POSTDOCTORAL FELLOW

✉ [vilane.g.sales@gmail.com](mailto:vilane.g.sales@gmail.com)

📍 Venice, Italy

## Profile

Dedicated Post-Doctoral Research Scientist with extensive expertise in climate change economics, environmental econometrics, and advanced data analytics for coastal vulnerability assessments. Adept in remote sensing, machine learning, and interdisciplinary collaboration, she has a proven track record of transforming complex research into actionable strategies for climate resilience and sustainable economic growth. Driven by a commitment to climate justice and equitable adaptation, she actively translates scientific findings into policy-relevant recommendations that inform sustainable coastal management. Her work includes close collaboration with ocean modelling and environmental law research groups, demonstrating a cross-disciplinary approach that bridges advanced scientific research.

## Research Interests

- **Economics of Natural Disasters & Climate Change:** Quantify economic impacts of extreme events and coastal flooding, highlighting differential vulnerabilities.
- **Sustainable Coastal Development & Biodiversity Conservation:** Create resilient frameworks for coastal tourism that integrate sustainability and conservation.
- **Climate Change Economics & Artificial Intelligence:** Apply machine learning and AI to model social vulnerability and predict macroeconomic impacts.
- **Climate Justice & Equitable Adaptation:** Advocate for policies that address socioeconomic disparities to ensure fair, inclusive adaptation.

## Education

### PhD in Economics, University of Birmingham, Birmingham (UK)

2015 — 2019

Essays on the Economics and Policies of Deforestation in Brazil

### MPhil in Management and Rural Development, Universidade Federal Rural de Pernambuco, Recife (BR)

2013 — 2015

Distinction

### BA Economics, Universidade Federal Rural de Pernambuco, Recife (BR)

2008 — 2012

Academic Honors Diploma (First Class)

## Scholarships, Certifications, Honours and Awards

2008 — Present

**Marie Skłodowska-Curie Postdoctoral Fellowship** (SEA-LIMITHS Project, Grant 101106544) – 2023–Present

**PhD Abroad – Doutorado Pleno no Exterior** (Coordination for the Improvement of Higher Education Personnel (CAPES)) – 2015-2019

**First Place Master Position Scholarship** (Coordination for the Improvement of Higher Education Personnel (CAPES)) – 2013-2015

**Scientific Initiation Program PBIC** (Coordination for the Improvement of Higher Education Personnel (CAPES)) – 2008 - 2012

## Employment History

**Marie Curie Postdoctoral Fellow, Ca'Foscari University of Venice, Venice**

June 2023 — Present

Currently serving as a Marie Curie Postdoctoral Fellow, I lead the SEA-LIMITHS project, an interdisciplinary investigation into the economic and environmental impacts of coastal sea-level rise on Italy's hospitality sector. In this role, I am responsible for:

- Developing a comprehensive geospatial database of sandy beaches and hospitality establishments in the Veneto and Emilia-Romagna regions, integrating remote sensing, AI, and machine learning techniques.
- Conducting spatial analyses to model beach erosion and forecast economic losses from sea-level rise under varying climate scenarios.
- Estimating adaptation costs and simulating macroeconomic effects to inform sustainable coastal management and policy-making.

- Bridging academic research and policy by translating complex scientific findings into actionable, policy-relevant insights aligned with the United Nations Sustainable Development Goals.

This position not only advances the frontiers of climate change economics and coastal resilience but also supports the development of equitable adaptation strategies to mitigate the impacts of climate change on vulnerable coastal communities.

#### **Post Doctoral Research, University of Bern, Bern**

2019 — June 2023

##### **Teaching**

- Deliver teaching for the undergraduate and postgraduate course(s) as appropriate.
- Develop and maintain involvement in teaching plans concerning teaching developments ongoing throughout the year.
- Practical organizational skills to manage time and priorities teaching and administrative duties.

##### **Research**

- Functioning somewhat independently, design, organize, and conduct highly specialized and advanced statistical analysis and, in some cases, develop new protocols; summarize findings and publish results in research journals; assume general responsibility for the scientific operations of the laboratory; provide supervision and guidance to master students, bachelor students, and other researchers.

#### **Lecturer (MSc): Environmental Econometrics , University of Bern, Bern**

2021 — 2022

- Utilize diverse assessment methods to provide timely, effective feedback and supervise practical work, enhancing student learning.
- Contribute to curriculum development with a research-based, scholarly approach.
- Engage in ongoing professional development and fulfill assigned administrative responsibilities.

#### **Lecturer (MSc): Environmental Economics for Non-Economists, University of Bern, Bern**

2019 — 2020

- Utilize diverse assessment methods to provide timely, effective feedback and supervise practical work, enhancing student learning.
- Contribute to curriculum development with a research-based, scholarly approach.
- Engage in ongoing professional development and fulfill assigned administrative responsibilities.

#### **Teaching Assistant (MSc): Political Economy and Economic Policy, University of Birmingham , Birmingham (UK)**

2019 — 2019

- Conduct instructional activities, including tutorials, seminars, and lectures, and develop materials that align with learning objectives.

#### **Teaching Assistant (Undergraduate): Environmental Economics at University of Birmingham , University of Birmingham, Birmingham (UK)**

2018 — 2018

- Participate in assessments by utilizing diverse methods to provide timely, practical feedback that supports student learning.

#### **Teaching Assistant (Undergraduate): Sustainable Development: Economy and Environment , University of Birmingham , Birmingham (UK)**

2017 — 2018

- Effectively manage diverse teaching and administrative tasks as directed by the Head of Subject, contributing to the strategic goals of the Economics Department.

## Outreach & Innovative Educational Initiatives

**Coastal Hotel Challenge (Unity Game), Veneto Night, Ca' Foscari University, Venice**

September 2024 — September 2024

- **Concept & Development:** Created an interactive game in Unity, allowing participants to assume roles (hotel managers, policymakers, mayors) and make strategic decisions to protect coastal hotels from sea-level rise.
- **Educational Focus:** Integrated real-world data and projections from the SEA-LIMITHS project, showcasing how climate change, erosion, and flooding affect coastal tourism.
- **Engagement & Impact:** Facilitated lively discussions on sustainability, adaptation strategies, and economic trade-offs, providing hands-on insight into climate resilience and hotel management challenges.
